We all appreciate how important it is to have access to high quality healthcare and services.

Since 1983, the South and Central Health Foundation has played an important role in healthcare in this region. Working with our donors, we provide critical new healthcare equipment and services.

All donations to The South and Central Health Foundation improve patient and long-term care by reducing wait times, providing new services to the region, improving comfort, or offering a new level of service right here in southern and central Newfoundland!
